Position Statement

As a member of your alumni Board of Trustees I can bring both my professional skills as well as the perspective of the everyday alumnus/a. I take to heart the meaning of the word Trustee and will work to continue to strengthen the reputation, honor, camaraderie and quality of education that is our beloved Penn State.

To that end I will work for:

- Transparency of governance and collaboration across colleges/ internal organizations.
- Future-forward diversity within the Board. This objective is to ensure that the Board reflects the same demographic makeup as the student body (genders, minorities etc.) so as to bring a variety of perspectives into the decision making process for stronger outcomes.
- Always keeping the students and the value of our University the top priority and the heart of every decision, program and fiscal spend.
- Leadership with honor.

It is my belief that success and integrity should be inseparable concepts and can be achieved not only through grand accomplishments but in ordinary, everyday decisions.

I will pledge my experience, intellect and heart to sustaining Penn State as a World Class University while maintaining the importance and value of honorable principles.

I am grateful for your consideration and if you select me through the alumni vote, I will work diligently to represent you well.

For the Glory!
